

An Upper Cervical Spinal Correction has been effective in resolving and /or reducing all kinds of health problems such as:

Allergies	Immune System Deficiency
Arthritis	Indigestion
Asthma	Infertility
Arm Pain	Knee Pain
Athletic Injuries	Learning Disability
Attention Deficit Disorder	Leg Pain
ADD or ADHD	Loss of Sleep
Auto Accidents	Low Back Pain
Back Pain	Meniere's Syndrome
Bell's Palsy	Migraine Headaches
Bed Wetting	Multiple Sclerosis
Carpal Tunnel Syndrome	Muscle Spasms
Cerebral Palsy	Neck Pain
Child Development Problems	Nervousness
Chronic Infections	Neuralgia
Constipation	Neuritis
Depression	Numbness
Digestive Problems	Pain (chronic)
Epileptic Seizures	Parkinson's
Ear Infections	Poor Vision
Eye Infections	Restlessness
Female Disorders	Scoliosis
Fever	Shoulder Pain
Flu Symptoms	Sinus Problems
Frequent Colds	Sore Throat
Hacking Cough	Stiffness
Hay Fever	Stress
Headaches (all types)	Tendonitis
Herniated Disc	Tight Muscles
High Blood Pressure	Tingling Sensations
Hip Pain	T.M.J. Syndrome
Hyperactivity	Trigeminal Neuralgia
	Tourett's Syndrome
	Whiplash

A specific X-ray evaluation enables the Doctor to develop a precise formula for the correction that is individual to each patient. The type of x-ray evaluation taken is determined by the age of the patient.

He uses this formula to make an Upper Cervical Spinal Correction designed to restore Posture Balance and remove stress, tension and pressure from around the Brain Stem along with the cranial and spinal nerves. This can be the cause of many health problems and/or symptoms.

This reactivates the flow of healing messages from the brain to the affected part of the body and immediately, the self-healing process begins.
